### < Product Description >

Pushing the idea of lounging to its fullest, Hansen is a modular series that allows the user to sit, lie, rest, roll-over and relax. Soft, feathery welcoming cushions embrace, seduce, soothe and serenade the user. Resistance is futile. Comfort reigns supreme. With more modules than you can shake a stick at, the combinations are endless. Oh yeah, and our chaise is bigger than yours.

### < Care Instruction >

-General  
For indoor use only. A light weekly vacuum will prevent build up in the fibres and protect against marks. We recommend the use of an appropriate furniture brush attachment with your vacuum cleaner. Do not use cleaners or cleaning agents that are abrasive, caustic or acidic.  
-Fabric Protection  
Treat spills and stains immediately with a damp cloth. We recommend using a qualified fabric protection service to apply chemical or other fabric protection.
